CREATING ORIGINALS

TRODAT IS MORE_

If we had to give one reason for our longterm favourable business development, it would probably be our permanent enthusiasm for improvement. This driving force leads us to seek innovation not just in our own field of stamp products, with our customer needs always in focus: all the other areas of business in the Trodat Group have arisen and grown from this attitude.

We are also particularly pleased with one result: Trodat has been one of the best operations in Europe in the category "Great Place to Work".

Motivated and well qualified staff are the essential key to success.

The international Trodat Group manages consolidated sales of more than 100 million Euros.

Solid financial results are the basis of the future improvement of existing products and services and the development of new ones, ensuring our place in the market for the benefit of our customers.

TRODAT STAMP PRODUCTS_

The traditional field of stamps has a multi-coloured star: Multi Color Impression.

For the first time, Trodat can exclusively offer to its Professional, Printy and Mobile Printy product range customers worldwide an individual, reproducible colour stamp.

New freedoms in creating an impression and secure machine production processes means that, for the first time, stamp makers can take into account their customers' individuality. Stamp impressions are in colour – because life is colourful.

More on Multi Color Impression: Page 4

TROTEC LASER TECHNOLOGY_

Trotec is the worldwide technology leader in laser equipment for stamp makers, engravers and sign makers.

In the last few years, this technology has also become established for industrial applications. Lasers for marking and cutting have become an indispensable component of modern manufacturing processes, especially in creating stamps.

It was also Trotec that developed the manufacturing process for Multi Color Impression pads with laser technology.

More on Trotec: Page 58

TRODAT_ AND THE ENVIRONMENT

We call it protecting of the environment, but in reality we human beings are protecting ourselves. We should all make a daily contribution towards keeping our environment safe and ensuring a worthwhile future, not just for ourselves but also for our children.

Trodan is the world's largest manufacturer of marking products and has a particular responsibility in this regard.

You can find out more about this in our catalogue or at: www.environment.trodan.net

TRODAT ACQUIRES US MARKET LEADER M&R MARKING SYSTEMS_

Trodan has been the world market leader in self-inking colour stamps since 2006 and is the biggest stamp producer in the world (based on sales).

The US market is important for Trodat, so the acquisition of the US market leader, M&R Marking Systems, has significantly enlarged the Trodat Group's worldwide market position, offering customers an even wider portfolio.

LEBENSPPUREN.MUSEUM_

Visit the lebensspuren.museum, which is entirely devoted to the history of marking, with its unique exhibits, such as Sumerian roll seals from 3000 B.C., ancient Chinese jade stamps and seals of historical significance.

The lebensspuren.museum also offers an exhibition about the history of Trodat and has become established as a cultural site in Wels.

STAMPS FOR THE OFFICE_

With original Trodat office products you can offer your stamp customers the ideal tool for frequent, precise and reliable use. Trodat stamps for the office are robust, fit perfectly in the hand, are clean to use and easily identifiable. Perfect user comfort every day.

STAMPS FOR AT HOME AND ON THE MOVE_

What is special about original Trodat products for the home office, for travelling or for private use? They are handy and compact. Their modern design includes the full range of functions for all customer requirements.

SPECIAL APPLICATIONS_

Trodat, the specialist in marking solutions, offers you the full range. With such a variety of stamps and accessories, stamp dealers can even fulfil special customer requirements.

BECAUSE LIFE IS COLOURFUL_

MULTI COLOR SPECTRUM

TRODAT INDIVIDUAL COLOUR STAMPS_

MULTI
COLOR
IMPRESSION

Trodat offers Multi Color Impression. Trodat is the first company which delivers MCI on a high-tech and patented production process. Individual colour stamps from Trodat are the new stars of the stamp world. Stamp makers can cater for their customers' individuality.

Unique worldwide, can be reproduced with laser technology from Trotec at any time. Exclusively from Trodat.

A wide range of colours for your stamp impression – BECAUSE LIFE IS COLOURFUL!

THE ADVANTAGES OF MULTI COLOR IMPRESSION AT A GLANCE_

A multi-colour stamp impression creates a **difference**.
The colour fields can be freely chosen.

Reordering of your individual Trodat Multi Color Impression pads can be done easily at any time.

Secure processing through laser technology.
The individual Multi Color Impression pad and text plate can be reproduced at any time and will produce exactly the same result.

Top quality imprint: The usual perfect imprint from Trodat stamps with a lifetime guarantee.

Several colours in one impression.
Choose from the following colours:

MULTI COLOR SPECTRUM

Value for money: Multi Color Impression (MCI) Technology was awarded the 2005 ISPA Award for special innovations in the field of office products by 30 leading European stationery magazines.

HIGH-TECH FOR MORE COLOURS_

The technology is supplied by Trotec, part of the Trodat Group. The specialist knowledge comes from Trodat and the stamp makers.

THE WAY IT WORKS_

An un-inked special Multi Color Impression pad is cut by laser – to fit exactly the colour layout of the impression. The individual fields are inked automatically with exactly the right dose of each colour. Finished!

INDIVIDUAL_

In order to carry out your customers' individual design requirements correctly, the colour fields on the Multi Color Impression pad can be arranged at will.

PRECISE_

The pad is cut precisely with the laser and the different colour fields are sealed.

QUALITY

In order to ink the colour fields accurately with Trodat Multi Color Impression inks, special ink injectors have been developed to dispense the correct amount of ink accurately by using special software. The result is a beautiful Trodat-quality stamp impression.

MULTI COLOR IMPRESSION INKS_

Multi Color Stamp pad ink to ensure the best quality for use with Trotec laser equipment.

7012 – available in 0.5l / 1l / 5l / 20l bottles.

Available colours:

MULTI COLOR SPECTRUM

MULTI COLOR IMPRESSION COMPATIBLE STAMPS_

The majority of models in the Trodat Professional, Trodat Printy and Trodat Mobile Printy ranges are compatible with Multi Color Impression. You will find appropriate instructions with every product.

QUALITY

OFFICE

TRODAT'S NEW PROFESSIONAL_ JUST USE IT, USE IT, USE IT.

The Trodat Professional, the ideal marking device for anyone who uses a stamp regularly. Top quality development and finishing make it a totally reliable office stamp.

ERGONOMIC_

The Professional offers user comfort and lies perfectly in the hand. The impression is made quietly with a gentle movement.

RELIABLE_

The modern ergonomic design of this office speciality hides its robust steel construction. In numerous tests, the Trodat Professional has proved to be the most durable and reliable product in its category.

CLEAN_

The new band cover makes sure that fingers remain clean during daily adjustment of the date bands. The additional unique **POWERBAR** reinforcement bridge guarantees perfect stability and durability.

TRODAT PROFESSIONAL TYPOMATIC_ DO-IT-YOURSELF

Combines the advantages of the ideal office stamp with the opportunity to set your own stamp text and change it again at any time.

STAMPS FOR AT HOME AND ON THE MOVE_

ORIGINAL TRODAT PRINTY_ THE BESTSELLER

Competitors keep trying to copy it. The Original Trodat Printy is now in its third generation and with sales of almost 200 million, it is the most popular self-inking stamp in the world. A true original that has been setting the standard in design and function for more than 30 years.

— THE ORIGINAL_

The Trodat Printy is the innovation winner in compact self-inking stamps: The 45° angle of the text view window for easy identification, the non-slip soft-touch grip cap and the dynamic shape are unmistakably stylish.

— HANDY_

The handy allround stamp is a reliable companion at home and when travelling. It is lightweight and of compact construction.

— MODERN DESIGN_

Innovative and high quality materials, contemporary styling, trendy casing colours – plus practical functionality. Indisputably the original.

TRODAT MOBILE PRINTY_ SIMPLE. STEADY. CLEAN.

The MOBILE PRINTY is the unique pocket stamp which can be operated with just ONE HAND.

The design and innovative functions make the MOBILE PRINTY more than a useful accessory. It is perfectly designed for all applications on the move or at home.

— SIMPLE_

Intelligent technology allows safe and fast stamping with only one hand: "Click" and ready.

— STEADY_

The unique pyramid shape with its central stabiliser ensures a stable and safe 5-point positioning for even distribution of pressure on the textplate and a clean impression.

— CLEAN_

The recessed text plate protects both the user and the stamp from getting dirty when stamping or replacing a pad.

TRODAT MOBILE PRINTY_ SIMPLE. STEADY. CLEAN.

NEW!

The Trodat Mobile Printy is easy to describe: behind it lies innovation and quality in an attractive design.

OPEN. STAMP. CLOSE_

You can do everything quickly with one hand. Just press on the clip and place the impression just where you want it. The MOBILE PRINTY closes again automatically and is safely held together by pressing gently.

STEADY FIVE-POINT POSITIONING_

The unique pyramid shape of the open MOBILE PRINTY and the central stabiliser ensure:

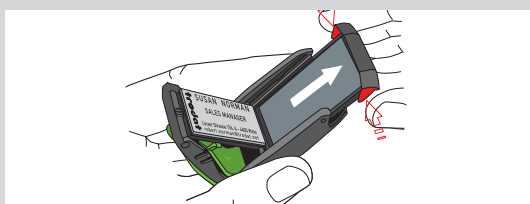

- > stable and safe 5-point positioning
- > even distribution of pressure on the textplate
- > firm pressing of the stamp without rocking, ensuring a clean impression.

THE KEY TO CLEANLINESS_

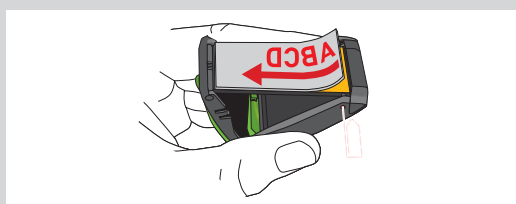

Thanks to the construction of the MOBILE PRINTY you never come into contact with the textplate or the pad, so it is not possible to get the outside of the stamp dirty. And this easy handling with just one hand is all possible with the Trodat Mobile Printy.

PAD REPLACEMENT_

Open the MOBILE PRINTY, press on the side and pull out the pad. Insert new pad – done.

AFFIX THE TEXTPLATE_

Hold firmly as shown or block with a paperclip. Remove protective foil and attach textplate

TRODAT SWOP-PADS_ REPLACEMENT PADS

Trodat replacement pads for Professional and Printy are truly high-tech products. Both the pad material and the colour have continued to be perfected through years of research. That is why a Trodat impression functions just as well at a polar ice cap or in a tropical rain forest. Even, homogenous colour application on every imprint.

STAMPS FOR SPECIAL APPLICATIONS_

TRODAT IMPRESSOR_ THE BETTER PRE-INKED SOLUTION

“Pre-inked” is the synonym of an alternative stamp technology. The text plate itself is inked with the stamp colour like a sponge.

Trodat Impressor stamps are handy to use, even with particularly large-format text plates.

TRODAT CLASSIC_ SIMPLE AND TRADITIONAL

Products from the Classic Line series are stamps that can truly be described as evergreen.

Classic products are used with a separate stamp pad.

TRODAT OFFICE PRINTY_ STOCK TEXT STAMPS

Based on the Printy 4912 stock texts are available for visibly identifying document workflow.

A practical organisational aid for any office.

TRODAT SPECIAL STAMPS_

As a specialist, Trodat also offers products that best fulfil your clients' marking requirements.

- > Clothing Marker
- > Automatic numbering machines
- > Pocket seals

TRODAT STAMP ACCESSORIES_

You can expect the same top quality from any accessories as you have come to expect from Trodat stamps.

- > Stamp pads
- > Stamp inks

SPECIAL APPLICATIONS

TRODAT IDEAL SEAL PRESSES

The world's most popular seal presses offer unprecedented quality and durability. The re-designed Ideal Model M and Ideal No. 1 Pocket models now have greater strength and leverage. These seal presses are a favourite with notaries, corporations, engineers and government officials around the world.

TRODAT POCKET SEALS

TRODAT IDEAL MODEL No. 1 – black finish/chrome

This model has become a favourite because of its compact size and high leverage which gives you clean, crisp impressions on most paper stocks.

No. 1 (chrome): 1.625" diameter (ø 41mm)

No. 1 (black finish): 1.625" diameter (ø 41mm)

No. 1R (chrome): 1" x 2" (25mm x 51mm)

No. 1R (black finish): 1" x 2" (25mm x 51mm)

Packaging

TRODAT POCKET SEALS

TRODAT IDEAL MODEL M – black finish/chrome

The larger size, heavy duty Model M offers greater leverage, longer paper insertion and more choices of interchangeable die holders.

The die holders used in this model are interchangeable with the Model M Desk Seal. Model M Pocket Seals include a deluxe leatherette carry case.

M1 (chrome): 1.625" diameter (ø 41mm)

M1 (black finish): 1.625" diameter (ø 41mm)

M1R (chrome): 1" x 2" (25mm x 51mm)

M1R (black finish): 1" x 2" (25mm x 51mm)

M2 (chrome): 2" diameter (ø 51mm)

M2 (black finish): 2" diameter (ø 51mm)

Packaging

TRODAT DESK SEALS

TRODAT IDEAL MODEL M DESK - black finish

This model has been engineered to produce higher pressure with minimal effort. If you are making a lot of impressions, you'll appreciate its ease of use. The die holders used in this model are interchangeable with the Model M pocket seals.

M1 Desk 1.625" diameter (ø 41mm)

M1R Desk 1" x 2" (25mm x 51mm)

M2 Desk 2" diameter (ø 51mm)

Packaging

TRODAT SEAL ACCESSORIES

TRODAT IDEAL PHOTOPOLYMERS_

Our in-house research chemists have put over thirty years of photopolymer experience into developing new, tack-free, high definition photopolymers. These new photopolymers will exceed your expectations for flexographic performance excellence. TRODAT IDEAL “i” Series photopolymers have been scientifically developed to meet the requirements of a large range of flexographic markets and applications. The photopolymers have a wide exposure latitude which means better fine detail definition.

TRODAT IDEAL i40 PLUS - PHOTOPOLYMER

TRODAT IDEAL i40 plus offers the proper surface energy to attract water-based inks, such as those used in stamps, as well as other flexographic printing inks. Excellent resilience and tensile strength make it one of the strongest 40A durometer photopolymers available. This is highly recommended for stamps, as it is soft enough to pick up ink on large bold images, yet resilient enough to offer excellent definition on smaller characters.

Packaging

> Suggested uses for TRODAT IDEAL i40 PLUS:

- Rubber stamps, labels, tags, pre-print liners, multiwall bags as well as a variety of flexible packaging applications.
- The tack-free surface and high resilience allow flexographic printers to perform longer and faster press runs without stopping for plate clean-up.

TRODAT IDEAL i50 PLUS - PHOTOPOLYMER

TRODAT IDEAL i50 plus offers the proper surface energy to attract water-based inks, such as those used in stamps as well as other flexographic printing inks. This polymer is recommended for stamp applications with very small, fine detail such as small type fonts and kanji fonts. Excellent resilience and tensile strength make it one of the strongest 50A durometer photopolymers available.

Packaging

> Suggested uses for TRODAT IDEAL i50 PLUS:

- Rubber stamps, labels, tags, preprint liners, multiwall bags, envelopes, paperboard, film as well as a variety of flexible packaging applications.
- The tack-free surface and high resilience allow flexographic printers to perform longer and faster press runs without stopping for plate clean-up.

SPECIAL APPLICATIONS

TRODAT PHOTOPOLYMER ACCESSORIES_

TRODAT IDEAL PLATEMAKING VELLUM

TRODAT IDEAL Plate Making Vellum is a very transparent vellum that produces excellent toner opacity in your laser printer or photocopier.

The high degree of transparency, excellent toner opacity, and the lack of visible fibers in the TRODAT IDEAL Plate Making Vellum provide a negative film with a very high degree of accuracy.

Packaging

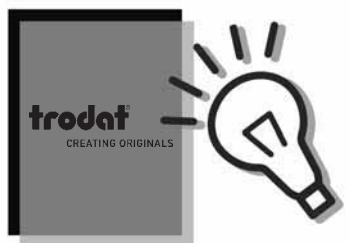

TRODAT DAYLIGHT AQ™ NEGATIVE SYSTEM

WATER-BASED BLACK NEGATIVE FILM SYSTEM

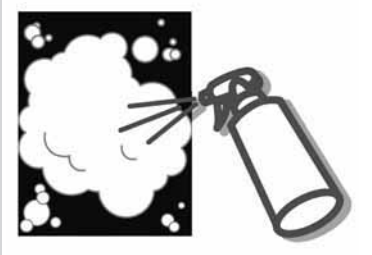

The system starts with TRODAT IDEAL Plate Making Vellum, a very transparent paper that is designed for use in your laser printer or photocopier.

Print or photocopy your stamp artwork onto the vellum, then expose the vellum and the Trodat Daylight AQ™ in your photopolymer exposure machine. Spray the water-based Activator onto the film and wipe clean. Rinse with water to stop the Activator process and blot dry. It's that simple. Once the negative is dry you can handle it like an ordinary film negative.

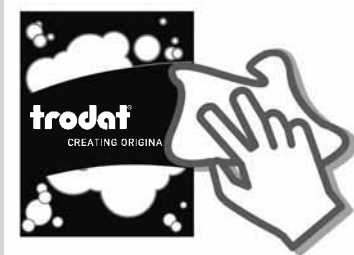

Packaging

Exposure to UV light in photopolymer machine

Spray on water based activator

Wipe away and dry

TRODAT IDEAL iPXC

The TRODAT IDEAL iPXC is a patented post-exposure additive that effectively eliminates tack when used with "i" Series photopolymers and iLW washout additive.

iPXC has been scientifically formulated to produce tack-free plates with "i" Series photopolymers. Use of other wash-out concentrates or post exposure additives may not yield the same tack-free results.

Packaging

TRODAT IDEAL iLW – LIQUID WASHOUT CONCENTRATE

The TRODAT IDEAL iLW is a cost-efficient liquid washout concentrate that effectively removes the uncured polymer during the washout stage. iLW provides excellent results and washout life whether it is used in automatic tank washout systems or hand-washing. This is an important step to producing tack-free plates.

iLW has been scientifically formulated to produce tack-free plates with "i" Series photopolymers. Use of other wash-out concentrates or post exposure additives may not yield the same tack-free results.

Packaging

TRODAT IDEAL iBOOSTER

The TRODAT IDEAL iBooster is a washout additive that extends washout life in all water conditions. This is highly recommended for use when hard water conditions exist.

The iBooster is used in addition to the iLW washout additive.

Packaging

TRODAT IDEAL iDFOAM

The TRODAT IDEAL iDfoam is a de-foamer that is added to the washout solution to eliminate foaming in spray washout equipment.

Packaging

TRODAT IDEAL "C" SERIES SUBSTRATE

The TRODAT IDEAL "c" Series Substrate backing sheets have been developed to provide unprecedented adhesion to the photopolymer.

The "c" series substrate also has excellent light diffusion which results in smoother, more consistent backgrounds.

Packaging

TRODAT DAMMING TAPE

This tape provides a dam to keep the poured photopolymer in place over the cover film and negative.

It helps to insure even and consistent total die height. This disposable foam tape is easy and economical to use.

Packaging

uTypia

Is it becoming more and more important for you to have a presence and sales on the internet? Trodat Professional Internet Services will be happy to advise you in person to find a suitable solution for your online business.

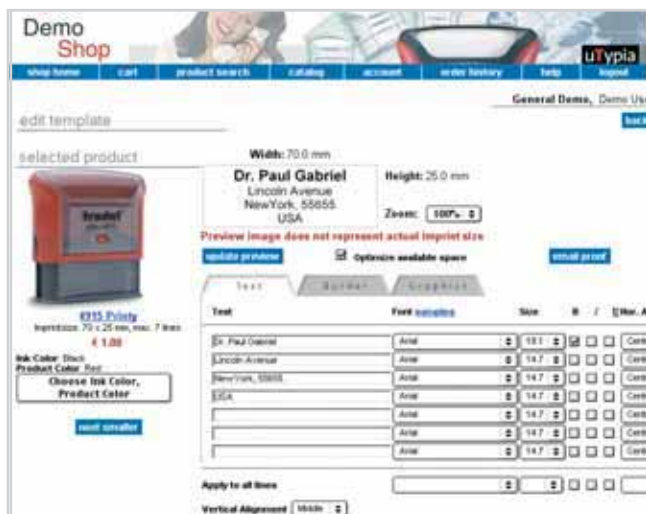

From ordering to handling sales, uTypia functions are tailor-made for stamps.

With its flexible applications and broad range of products, uTypia can deal with all your requirements and requests from repeat sales, in-house and private customers.

The uTypia web shop can be integrated into e-procurement applications, market places and other systems using standard interfaces.

THE MOST IMPORTANT FEATURES_

THE CUSTOM WIZARD_

Logically and practically constructed, your customers can create a detailed stamp impression themselves (text editing, font selection, inserting graphics, frame setting and much more).

TEMPLATE SELECTION_

Templates can be made available for any user or user group. Orders of similar impressions can then be produced quickly. In this manner, companies in particular can be sure that their staff are ordering strictly in accordance with the corporate design guidelines.

SERVICES INCLUDE_

uTypia professional shop 3.0

uTypia professional shop is the ideal solution for professional selling on the internet of custom products such as stamps, business cards or signs. The shop can be adjusted for individual users or user groups. Product range, prices, designs, discounts or conditions can be varied. uTypia professional shop is easily integrated into other systems.

uTypia standard shop 3.0

uTypia standard shop includes the Trodat range and has available all the basic functions necessary for an internet stamp shop. Layout preview, templates, search function, order history and graphics and border functions enable the user to order a stamp quickly and easily. uTypia standard shop can be complemented by additional modules or a greater range of products and extended into a professional shop.

uTypia voucher 2.0

The uTypia voucher enables text plates to be created on the internet and is based on the following system: the customer buys a stamp together with a voucher. On this voucher there is a website address where a text plate can be created and ordered using a code. The text plate is then sent to the customer by mail.

uTypia page 2.0

With uTypia page, you can present your company and your products on your own homepage. Visitors to your homepage can direct queries and requirements to you using a contact form. Your customers can also place simple stamp orders. You can manage the contents of your web page yourself by means of the Content Management System.

> You can find further information at:
www.uTypia.com

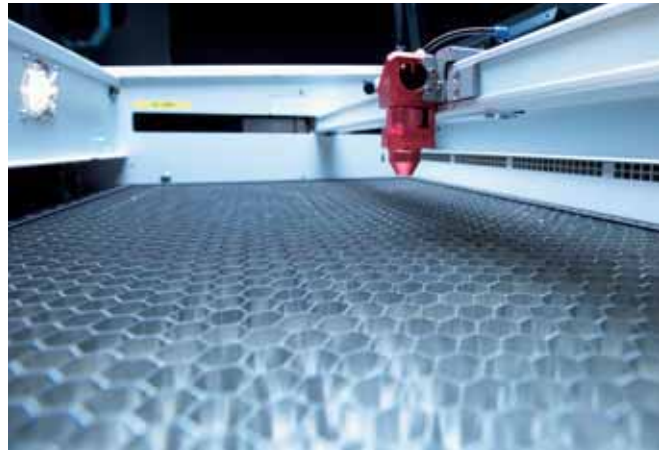

trotec[®]
laser engraving technology

Laser technology has made inexorable and triumphant progress throughout the stamp industry in the last few years. Because of their innovative and reliable solutions, Trotec lasers are now the best-selling systems to stamp makers worldwide.

YOUR BENEFITS_

INDIVIDUAL ITEMS OR SERIES_

Whether you are preparing several DIN A4 plates or an individual stamp, Trotec offers the ideal solution.

MAXIMUM PRODUCTIVITY_

The fastest engraving speeds and minimal maintenance ensure that your Trotec laser will earn you money.

ENVIRONMENTALLY FRIENDLY PRODUCTION_

Production straight from the computer to the plate. No materials or waste such as slides, matrices or chemicals in between.

HIGH LEVEL OF FLEXIBILITY_

Laser systems can be used for a range of applications. Signs, advertising, displays, etc. That way, your Trotec laser will pay for itself even more quickly.

COST-EFFECTIVE PRODUCTION METHODS_

Compared with other manufacturing methods, laser technology is extremely cost-effective.

EXCERPTS FROM THE TRODAT ENVIRONMENTAL STANDARDS_

RAW MATERIALS

- > Completely free from harmful heavy metals such as zinc, cadmium or lead which may be dangerous or damaging for the environment
- > The production of our stamps is completely PVC free
- > Suppliers are regularly screened for environmental and quality certification

PRODUCTION

- > Up to 82% of waste from production are sent for recycling
- > Up to 100% recycling of mechanically unstressed parts
- > The amount of production rejects is less than 0.3%
- > The whole manufacturing process does not produce any sewage

ENERGY

- > Recycled heat from production is used to heat the building
- > Up to 62% of electricity comes from renewable energies

As the world market leader in marking products, Trodat believes it has a special responsibility. With a unified approach, we lead the way in environmental protection.

In everything we do, we try to keep the effects on our ecosystem as small as possible. Our staff are aware of this and we use the best available, economically viable technology. In our whole value creation process we set great store by the efficient use of energy and raw materials. A comprehensive awareness of the environment guides the whole Trodat process, beginning with planning and development, through to production and then on to transport and supply. Finally, our products are extremely durable, so our commitment is passed on to the consumer.

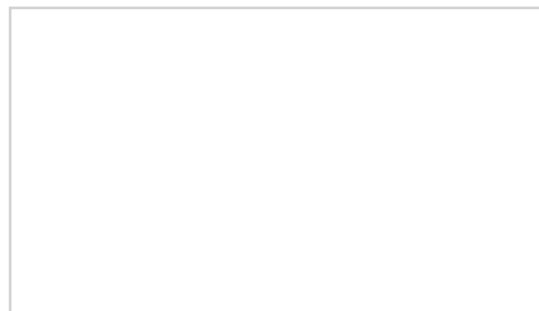

CREATING ORIGINALS

TRODAT STANDS FOR PARTNERSHIP_

To create an original, you need partners who work well together.

Thus when we talk about our products, we talk about "components". Text plates are the parts which complete the product and their special assembly requires a qualified stamp maker. Only when all parties work together can our customers enjoy using their original Trodat stamps. And satisfied customers are happy to come back for more.

Continuity, trust and innovative strength are the characteristics of quality in the partnership of Trodat with its customers – in 170 countries around the world.
